

Authors list - as at 21 April 2009			
Author-1	Author-2	Author-3	Paper Title
Addis, Bill			A Brief History of Design Methods for Building Acoustics
Aktuglu, Yesim Kamile	Altin, Mujde	Tanac, Mine	Suleymaniye Mosque of Mimar Sinan, in Turkish Architectural Construction History
Albani, Francesca	-	-	Transparent and translucent surfaces of Italian architecture in the thirties
Albrecht, Luise	-	-	An Insight into the Vaulting Process in the Roman Period: A One-Off Case or a Standard Construction Method?
Alonso Rodriguez, Miguel Angel	Calvo López, José	López Mozo, Ana	Functionalism and caprice in stonecutting. The case of the Nativity Chapel in Burgos Cathedral
Alonso, Ruiz Begona	-	-	The construction of the Cathedral of Segovia from Juan Guas to Juan Gil de Hontañón.
Antuna Bernardo, Joaquin	-	-	Prestressed Constructions without Steel. A Project of the Spanish Engineer Eduardo Torroja
Arenillas, Miguel	Barahona, Marisa	-	A new approach regarding the water supply to Toledo during the Roman Era
Attas, David	Provost, Michael	Bouillard, Philippe	Definition and identification of an "Engineering Heritage" – Application to the Region of Brussels
Bachmann, Martin	-	-	The Amcazade Yalısı in İstanbul. A new light on Ottoman carpentry
Badalini, Juri	Dandria, Silvia	-	Diffusion of a technological model along the Adige path: the composite beams
Bagliani, Stefano	-	-	The Architecture and Mechanics of Elliptical Domes
Balboni, Laura	Corradini, Paolo	-	The technology of camorcanna vaults: examples of use in palaces and villas in the Este territory in the 17th and 18th century
Bancila, Radu	Petzek, Edward	-	The history of the Romanian Danube bridges
Bankel, Hansgeorg	-	-	A German war plant from 1944/45: The Aircraft Factory Weingut I and the Concentration Camp Waldlager 6 near Mühlendorf/Inn
Barbera, Paola	-	-	Giuseppe Damiani Almeyda's Architecture: Constructing the Modern Restoring the Ancient. The Politeama Theatre's dome in Palermo
Barozzi, Anna	Guardigli, Luca	-	Italian construction in the first half of the twentieth century between materials restrictions and innovative technology
Basiricò, Tiziana	Cottone, Antonio	-	The first experimentations on the hollow tile floors in western Sicily
Basyn, Jean-Marc	-	-	The protection of the public swimming pools in Brussels-Capital Region
Becchi, Antonio	-	-	The body of the architect. Flesh, bones and forces between mechanical and architectural theories
Beckh, Matthias	Barthel, Rainer	-	Construction and structural behaviour of Shukhovs gridshell in Vyksa
Bell, Paul	-	-	The Structure of Georgian London Houses
Beltramo, Silvia	-	-	Construction Methods and Models of Cistercian Abbeys in North-Western Italy between XII and XIII Century
Benito Pradillo, Angeles	-	-	First building stages of the Cathedral of Avila. Romanesque and Protogothic stages
Bernabeu, Alejandro	-	-	Shape design methods based on the optimisation of the structure. Historical background and application to contemporary architecture
Bertels, Inge	De Jonge, Krista	-	Building Specifications and the Growing Standardizing of Public Building Regulation in Nineteenth-Century Belgium
Bien, Jan	Helmerich, Rosemarie	Kubiak, Zygmunt	Condition assessment of old railway bridges, a scientific cooperation between Berlin and Wrocław
Bossi, Stefania	-	-	Construction history: what kind of knowledge in the maintenance process?
Bowen, Brian	-	-	The Quantity Surveyor: Missing in Action in the USA
Bögle, Annette	-	-	Structural history - a basic element for teaching creativity
Bravo Guerrero, Sandra Cynthia	Palacios Gonzalo, José	-	Crossing Trellis Vaults in Spain and Mexico
Bruculeri, Antonio	-	-	Building Construction and Architectural Practice: the Teaching of François Marie Jaÿ at the Ecole des Beaux-Arts of Paris (1824-1863)
Bühler, Dirk	-	-	Building a Masterpiece of Concrete-Technology: The Deutsches Museum in Munich (1906-1911)
Burford, Neil. K.	Gengnagel, Christoph	Smith, Fraser	The Evolution of Arches as Lightweight Structures - a history of empiricism and science
Cajigal Vera, Miguel Angel	-	-	Proportion, Symmetry and Mathematics in the Renaissance Theory of Construction: Vignola's Treaty of Architecture and ....
Campa, Maria Rita	-	-	E.E. Viollet-le-Duc: innovation and tradition in architecture. Language of form and structure in the conception of polyhedral vaults.
Campbell, James	-	-	Building a fortune: the finances of the stonemasons working on the rebuilding of St Paul's Cathedral 1675-1720
Carocci, Caterina F.	-	-	Giuseppe Damiani Almeyda's Architecture: Constructing the Modern Restoring the Ancient. The Cathedral of Marsala
Carocci, Caterina F.	Speranza, Cristina	-	The Plan of Street Levelling in Catania 1820-1879. Urban Restyling and Seismic Vulnerability
Carvais, Robert	-	-	Creating a Legal Field: Building Customs and Norms in Modern French Law
Caston, Philip S. C.	-	-	Historic Wooden Covered Bridge Trusses in Germany
Ceraldi, Carla	Mormone, Valeria	Ermolli, E. Russo	Timber Covering Structures of Churches Built in Naples during Angevin Domination
Chamorro Trenado, Miquel	-	-	The Construction of the Saint Felix Church Tower in Girona, During the Fourteenth Century: Workers, Materials and Equipment
Chiou, Bor-Shuenn	Hsu, Yi-Hung	-	Modernizing Traditional Craftsmanship: Notes on the Working Drawings by a Traditional Master Carpenter in Taiwan
Chrimes, Mike	-	-	A Forgotten Chapter in Dam History: Masonry Dams in British India in the Nineteenth Century
Ciranna, Simonetta	-	-	Practice, Empiricism and Science inside the Corpo degli Ingegneri Pontifici. The Activity of Giuseppe Della Gatta in the District...
Como, Maria Teresa	-	-	The Construction of Mycenaean Tholoi
Como, Mario	-	-	The Collapse of the Beauvais Cathedral in 1284: the Conjecture of the Creep Buckling Piers
Conti, Cinzia	Martines, Giangiacomo	Sinopoli, Anna	Constructions techniques of Roman vaults: Opus caementicium and the octagonal dome of the Domus Aurea
Cottone, Antonio	Bertorotta, Simona	-	New Domes for old Churches (Palermo 1943)
Croize, Jean-Claude	-	-	Academic views on the economics of construction : French variations (1920-1970)
